

Valid for all files:

Images, logos and fonts must be generated in CMYK and should ideally be presented in vector form in order to guarantee loss-free transformation.

Please do convert all fonts into paths and do not apply bleed margin or cutting marks to the document.

Do not elaborate a multi-paged PDF document.

Please do only transfer single-paged PDF documents.

File types:

PDF 1.3 x3, EPS, PSD, TIFF, Ai, JPG

- CMYK PDF 1.4 x3
- CMYK Tiff-Files with LZW-compression
- CMYK EPS-Files with JPG-compression
- CMYK Illustrator CS6
- CMYK Photoshop CS6 (one Layer)
- CMYK Indesign CS6 (package)

Please do not send us Corel, Excel, Word or Power-Point Files.

Data Volume:

The image resolution should not fall below 100 dpi or exceed 150 dpi when submitting the data in 1:1 trimmed size.

Should you create a bigger file please adjust the image resolution proportionally.

(1:2 – 300 dpi; 1:4 – 600 dpi; 1:10 – 1000 dpi)

Colors:

All special colors must be generated in CMYK using FOGRA39. Data in the RGB color space will be converted.

Please send, if possible, a proof of your submitted data or supply corresponding HKS or Pantone color references. Complaints will not be accepted if these proofs or references are not supplied. A certified proof can be made for a charge.

Hint:

Please generate black fonts, lines and areas in 0/0/0/100.

File Designation:

Name_Productname_SizeInMM_Amount

i.g. MyCompany_Ro.04_850x2200_3xprinting.pdf

A written order by fax or e-mail is mandatory – irrespective of the data transfer.

Data Transfer:
